

iGUIDE[®] for Insurance

Solution Overview

iGUIDE is a powerful property documentation solution to streamline insurance and restoration workflows. By combining interactive 3D virtual walkthroughs with precise floor plans and comprehensive property data, iGUIDE enables professionals to document properties quickly and accurately.

This innovative tool reduces site visits, enhances collaboration and ensures clear communication between adjusters, contractors and property owners, ultimately saving time and improving efficiency in claims and restoration processes.

iGUIDE Instant

\$7.99 USD

AI-generated floor plans and 3D walkthrough in minutes.

iGUIDE Instant delivers a 3D walkthrough and interactive floor plan solution for those who need fast virtual walkthroughs and simple AI generated floor plans. Interactive floor plans and panoramic images, easily shared with a link, ensure quick and comprehensive access to property data for sketching in Xactimate and remote estimating.
